

ALBIN SURESH

📍 Kottayam, Kerala, India ✉ albinsuresh64@gmail.com ☎ 7902245966 📺 in/albin-suresh 🌐 github.com/Albinsuresh2510

SUMMARY

Java full-stack enthusiast with skills in Spring Boot, Angular, and MySQL. Passionate about coding real-world apps and growing as a full-stack developer.

EXPERIENCE

internship

IBIL Solutions

May 2025 - June 2025, Technopark Campus, Trivandrum

- Simulated REST API development using Spring Boot.
- Built a simple inventory system backend connected to MySQL.
- Learned CI/CD basics and GitHub project tracking.
- Applied core Java concepts including Collections, OOP, and exception handling.

PROJECTS

Resumify

github.com/Albinsuresh2510/Resumify • May 2025 - June 2025

- Built a full-stack system to extract name, email, phone, skills, and experience from PDF resumes.
- Integrated Angular UI with Spring Boot backend and MySQL for storing structured resume data.
- Enabled filtering and sorting of candidates by skills and experience.
- Added “Forgot Password” flow using Spring Security and email-based token validation.

Mini Banking System Project

github.com/Albinsuresh2510/Mini-Bank-Project-Java • May 2025 - May 2025

- Built a CLI-based banking app using Java and MySQL with features like deposit, withdrawal, and balance check.
- Used JDBC to connect to a MySQL database handling test users.
- Applied OOP concepts and robust error handling for secure transactions.
- Simulated a basic banking flow with transaction tracking in CLI.

EDUCATION

Diploma computer Engineering

Government polytechnic college Purapuzha • Kerala,Thodupuzha • 2024 • 8.39

- Currently learning Java and C programming with a focus on core logic and syntax.
- Familiar with basic computer operations including typing, file handling, and system navigation.
- Eager to grow in a team environment and apply skills in practical scenarios.

Full Stack Web Development Training

DDUGKY • Kerala Trivandrum • 2025

- Currently learning Java, Spring Boot, Angular, HTML, CSS, and basic JavaScript.

CERTIFICATIONS

Diploma in Computer Engineering

Government polytechnic college Purapuzha • 2024

- The Diploma in Computer Engineering gave me a strong foundation in programming, software development, computer systems, and networking.
- It covered essential subjects like Java, C, DBMS, operating systems, and web

SKILLS

Languages:Java, C, JavaScript (Basic), HTML5, CSS3,C++

Backend:Spring Boot(Basic), REST API (Basic),Angular (Basic)

Tools & Platforms:Git, GitHub, Postman, Android Studio (Basic), VS Code

Database:MySQL

Soft Skills: Time Management
